

Anival Ramos

VR/Game Developer & 3D Artist

ramosbusiness1818@gmail.com | Orem, UT | linkedin.com/in/anivalramos115

PROFESSIONAL SUMMARY

Game Developer with 4+ years of experience building gameplay systems, interactive mechanics, and VR experiences in Unreal Engine. Published Meta Quest developer with strong expertise in Blueprint visual scripting. Experienced in developing end-to-end projects from concept to deployment, with a focus on gameplay systems, player interaction, and real-time performance.

EXPERIENCE

VR/Game Developer

Freelance • Remote • 2025 – Present

- Developed and published a VR training application on Meta Quest
- Built gameplay systems and interaction mechanics in Unreal Engine
- Developed VR systems with interactive controls and physics-based mechanics
- Created 3D assets and environments to support gameplay needs

Game Developer & 3D Artist

Personal Portfolio • Remote • 2022 – Present

- Built interactive simulations with gameplay systems and mechanics
- Developed control systems and player interaction mechanics
- Optimized performance for VR platforms and real-time rendering
- Created 3D assets including characters, vehicles, and environments

EDUCATION

Bachelor of Science – Animation & Game Development

Extended Reality (XR) Specialization

Utah Valley University | Orem, UT | 2022 – 2026

Specialized in VR/AR development, Unreal Engine programming, interactive gameplay mechanics, and immersive experience design.

3D Art & Digital Media

Supporting Skillset for Game Development

Utah Valley University | Orem, UT | 2022 – 2026

Focused on 3D modeling, texturing, lighting, and asset creation to support game development projects.

Minor in Computer Science

Technical Programming Foundation

Utah Valley University | Orem, UT | 2025 – 2026

Strengthened programming fundamentals, algorithms, and software development practices to enhance game development capabilities.

SKILLS

VR Development

Meta Quest Blueprint Visual Scripting Interactive Mechanics VR Optimization

Game Engines

Unreal Engine MetaHuman Creator

3D Software

Maya Blender ZBrush Substance Painter Substance Designer

Technical Skills

Gameplay Programming 3D Modeling PBR Texturing Lighting Level Design

KEY ACHIEVEMENTS

- Published a VR application on the Meta Quest platform
- Developed VR systems with interactive mechanics and user-driven interactions
- Built complete Unreal Engine projects from concept to deployment
- Designed and implemented gameplay systems using Unreal Engine Blueprints
